

TOP RANK TATTOO INC.

HOW TO CARE FOR YOUR NEW TATTOO

Top Rank is a clean, professional tattoo studio. All of our artists use sterile instruments and pigments. If you follow these simple instructions, your healing process should be quick and easy.

-REMOVE YOUR BANDAGE AFTER 1-2 HOURS. IF THE BANDAGE STICKS, WET THE AREA WITH LUKEWARM WATER AND GENTLY SLIDE THE BANDAGE OFF.

-USING CLEAN HANDS, WASH THE AREA GENTLY WITH MILD/UNSCENTED SOAP AND WATER, MAKING SURE TO REMOVE ALL EXCESS OINTMENT, BLOOD, AND INK. DO NOT SCRUB OR RE-BANDAGE. PAT THE AREA DRY WITH A CLEAN TOWEL.

-APPLY A VERY THIN LAYER OF BACITRACIN/UNSCENTED LOTION 2-3 TIMES AND FOR 2-3 DAYS. IF IT IS SHINY WHEN YOU APPLY THE OINTMENT, YOU HAVE USED TOO MUCH. DO NOT USE VASELINE, ALOE, NEOSPORIN, OR ANY OTHER REMEDY NOT RECOMMENDED BY YOUR ARTIST.

-WHEN PEELING BEGINS, APPLY A MILD, UNSCENTED LOTION (SUCH AS LUBRIDERM) UNTIL THE TATTOO SETTLES INTO THE SKIN (APPROXIMATELY 3 WEEKS TO A MONTH).

-AVOID THE SUN FOR AT LEAST A MONTH, AND AFTER THAT USE SUNSCREEN WITH A HIGH SPF TO PROTECT YOUR TATTOO FROM PREMATURE AGING AND FADING.

-NO SWIMMING OR SOAKING FOR TWO WEEKS.

- NO SCRATCHING OR PICKING YOUR TATTOO.

-IF YOU WORK IN A DIRTY ENVIRONMENT, COVER YOUR TATTOO WITH LOOSE COTTON CLOTHING AND WASH IT GENTLY AS OFTEN AS NECESSARY TO KEEP IT CLEAN.
